|---|--|
| <ul style="list-style-type: none"> ● Blue Light (415nm)
Helps reduce acne-causing bacteria
Supports balanced oil production | <ul style="list-style-type: none"> ● Red Light (660nm)
Promotes firmer-looking skin
Helps maintain healthy hair appearance |
| <ul style="list-style-type: none"> ● Amber Light (585nm)
Helps calm sensitive skin
Supports the skin's natural recovery | <ul style="list-style-type: none"> ● Infrared Light (830nm)
Provides temporary relief
Supports healthy blood flow |

TREATMENT MODES

For Every Need

Acne Management

Skin Brightening

Recovery & Relaxation

Scalp Wellness

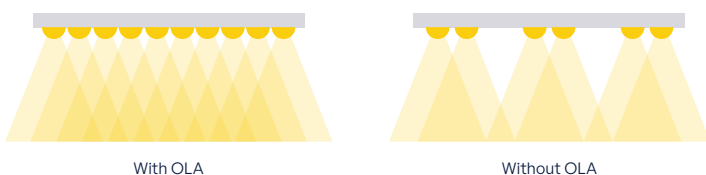

Redness Reduction

ONE PANEL. FOUR WAVELENGTHS. INFINITE POSSIBILITIES.

415, 585, 660, 830 nm in single head

WHY CURELUX?

Optimized Lens Array (OLA)

Enhances intensity, improves light penetration depth, and ensures even LED light distribution.

High-Output LED Power

Delivers effective and consistent performance.

No Cooling Fan – Low Noise

Curelux's low-power system eliminates the need for a cooling fan, ensuring ultra-quiet operation.

9 Function Memory System

Simplifies operations with customizable settings.

No Overheating – Consistent Performance

Curelux's high thermal-resistant metal PCB protects the LEDs from heat-related efficiency loss and lifespan reduction ensuring steady performance, session after session.

ILLUMINATE YOUR SKIN

The advanced LED light therapy designed to rejuvenate, brighten, and revitalize your complexion.

Specification

Wavelength	415 nm, 585 nm, 660 nm, 830 nm
Electrical Requirement	AC 100V / 240V 50Hz 5-8.5 A
Control Board	Main board LED control board 4 color LED board
Rated Life	10000 H

*Powerful Light. Radiant Results.
